PROFESSIONAL SUMMARY

Motivated and results-driven Full-Stack Developer with 2 years of hands-on experience building responsive web applications, APIs, authentication systems, dashboards, and database-driven platforms. Skilled in both frontend and backend development with experience working with React, JavaScript, Node.js, Express.js, MongoDB, Firebase, REST APIs, Git, and GitHub.

Passionate about solving real-world problems through technology, learning new technologies, and building scalable, user-friendly applications. Comfortable working independently or as part of a team in fast-paced startup environments.

TECHNICAL SKILLS

Frontend

HTML5, CSS3, JavaScript, React.js, Responsive Web Design, Tailwind CSS, UI/UX implementation

Backend

Node.js, Express.js, REST APIs, API integration, Authentication & Authorization, Server-side development

Databases

MongoDB, Firebase, Database design, CRUD operations

Tools & Technologies

Git, GitHub, VS Code, npm, Postman, Firebase, M-Pesa Daraja API

Other Skills

Problem solving, Debugging, API integration, Payment integration, Deployment, Version control, Technical research

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Freelance / Independent Projects — Nairobi, Kenya | 2024 – Present

- Developed full-stack web applications using React, Node.js, Express.js and MongoDB.
- Built responsive and user-friendly interfaces for desktop and mobile users.
- Developed RESTful APIs for authentication, user management, tasks, payments and other application functionality.
- Implemented user registration, login and authentication systems.
- Integrated third-party APIs and services into web applications.
- Worked with MongoDB to design and manage application data.
- Used Git and GitHub for source control and project management.
- Debugged frontend and backend issues and improved application performance.
- Built and tested applications from initial concept through development and deployment.
- Continuously researched and implemented new technologies to improve projects.
